Building a Better State of Health Since 1849

IT'S YOUR MEDICAL CARE...OPPOSE SENATE BILL H.R. 3590 CONTACT YOUR CONGRESSIONAL LEADERS TODAY!

The Medical Association of Georgia (MAG) – which is the leading voice for physicians in the state – opposes H.R. 3590 (the Senate version of the health bill) because it lays the foundation for government-controlled health care, which will undermine your health care and increase your health care costs.

A government system would mean fewer physicians and hospital choices for you as a patient. It would also result in the kind of health care rationing that's taken place in the "single-payer" systems in Canada and the United Kingdom. That means it will become difficult and time-consuming for you to receive the medical care you want and need.

MAG supports market-based health care reform that's focused on the individual patient, where...

- Patients get to choose their own health plan
- Patients get to choose their own physician
- Patients decide what's best for them and their family – with the physician as trusted advisor

We need to preserve the relationship between patients and physicians, which has served as the foundation for the best medical care in the world.

Please contact your congressional leaders today to oppose H.R. 3590.

Tell them you want to choose your own health plan and your own doctor and decide what medical care is best for you and your family.

Go to www.capwiz.com/mag for information on ways to contact your congressional leaders.

Go to www.mag.org for additional information.
